NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2006

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

[a] Basis of Presentation

These interim consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles ("Canadian GAAP") using the same accounting policies and methods as the most recent audited consolidated financial statements. These interim consolidated financial statements do not include all of the disclosure included in the Company's annual audited consolidated financial statements. Accordingly, these interim consolidated financial statements should be read in conjunction with the annual audited financial statements for the year ending September 30th, 2005.

[b] Basis of Consolidation

These consolidated financial statements have been prepared in accordance with Canadian generally accepted accounting principles ["Canadian GAAP"] and include the accounts of Brainhunter Inc. and from the respective dates of acquisition of control, its wholly owned subsidiaries, collectively referred to herein as the "Company". All significant inter-company balances and transactions have been eliminated on consolidation.

[c] Revenue Recognition

The Company provides computer and engineer consultant placements to customers based on written agreements. Revenue from contracts that is earned over a period of time is recognized monthly when clients are billed for hours worked at agreed rates. Other one-time fees earned for individual placements are recognized in the month the individual commences the new job.

The Company enters into written contracts with customers to complete specific software consulting projects. Customer billings are prepared monthly based on hours worked and agreed rates, at which time revenue is recognized. To a significantly lesser degree certain other contracts are fixed-price, for which revenue is recognized monthly using the percentage of completion basis, based on management estimates.

The Company markets third-party software for which customers are billed upon delivery. The Company also supplies consulting and training services related to the software, for which revenue is recognized when these services are provided.

The Company earns revenue from software licenses for in-house developed software that is deferred and amortized over the term of the license. Software implementation revenue is recognized in the period the implementation is completed.

The Company's accounting policy complies with the revenue determination requirements set forth in EIC-142, "Revenue Arrangements with Multiple Deliverables", relating to the separation of multiple deliverables into individual accounting units with determinable fair values.

Service revenue on fixed-price contracts is recognized on a percentage of completion basis, whereby revenue is recorded at the estimated net realizable value of work completed to date. Estimated losses on contracts in progress are recognized when known. Deferred revenue represents amounts billed in advance of satisfying the related service.

[d] Capital Assets

Capital assets are recorded at cost, less related investment tax credits. Amortization is provided for over the estimated useful lives of the related assets at the following annual rates and methods:

Furniture and office equipment	20% declining balance
Computer equipment	30% declining balance
Computer software	100% declining balance
Developed software	Straight-line over 5 years
Leasehold improvements	Straight-line over the lease term

[e] Goodwill

Goodwill represents the excess of the purchase consideration paid over the fair value of identifiable net assets of acquired businesses. Goodwill is tested for impairment annually, or more frequently if events or changes in circumstances indicate that the asset might be impaired. The impairment test is carried out in two steps. In the first step, the carrying amount of the reporting unit is compared with its fair value. When the fair value of a reporting unit exceeds its carrying amount, goodwill of the reporting unit is considered not to be impaired and the second step of the impairment test is unnecessary. The second step is carried out when the carrying amount of a reporting unit exceeds its fair value, in which case the implied fair value of the reporting unit's goodwill is compared with its carrying amount to measure the amount of the impairment loss, if any. The implied fair value of goodwill is determined in the same manner as the value of goodwill is determined in a business combination, using the fair value of the reporting unit as if it was the purchase price. When the carrying amount of the reporting unit's goodwill exceeds the implied fair value of the goodwill, an impairment loss is recognized in an amount equal to the excess and is presented as a separate line item in the consolidated statement of operations.

[f] Intangible Assets

Intangible assets, comprising contracts, non-competes, customer relationships, trademarks, trade names, internet domain addresses, and patented technology are being amortized on a straight-line basis over their estimated period of benefit which varies from two to five years.

[g] Income Taxes

The Company provides for income taxes using the liability method of tax allocation. Under this method, future income tax assets and liabilities are determined based on deductible or taxable temporary differences between the financial statement values and tax value of assets and liabilities and for the benefit of tax losses that are carried forward to offset future years' current taxes payable if they are likely to be realized. Future tax assets and liabilities are measured using the substantively enacted tax rates and laws that will be in effect when the differences are expected to reverse.

The Company establishes a valuation allowance against future income tax assets if, based upon available information, it is more likely than not that some of or all of the future income tax assets may not be realized.

[h] Deferred Lease Inducements

Leasehold inducements comprise free rent and leasehold improvement incentives. Leasehold inducements are deferred and amortized to reduce rental expense on a straight-line basis over the term of the related lease.

[i] Research and Development

Research and development costs are expensed as incurred unless the development costs meet certain generally accepted accounting criteria in Canada.

[j] Investment Tax Credits

Investment tax credits relating to qualifying research and development expenditures are recorded as a reduction from the expenditures or assets to which they relate and there is reasonable assurance that the investment tax credits will be realized.

[k] Foreign Currency Translation

Monetary assets and liabilities denominated in foreign currencies are translated into Canadian dollars at the rate of exchange prevailing at year end. Revenue and expense items are translated into Canadian dollars using exchange rates in effect on the transaction dates. Gains and losses from translation activities are included in earnings for the year.

[l] Financial Instruments

The fair value of financial instruments approximates their carrying value unless otherwise disclosed in the consolidated financial statements.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2006

[m]Use of Estimates and Assumptions

The preparation of financial statements in conformity with Canadian GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Such estimates include the allowance for potentially uncollectible accounts receivable, accrued liabilities, the length of product cycles and the related useful life of capital assets, providing for the recovery of investment tax credits, and providing for a valuation allowance for future income tax credits and the classification of the current year's benefit expected to be realized, all of which are based on management's best estimates. By their nature, these estimates are subject to measurement uncertainty and the effect on these consolidated financial statements of changes in estimates in future periods could be significant. Actual results could differ from those estimates.

[n] Deferred Financing Costs

Financing costs relating to long-term debt are deferred and amortized on the straight-line basis over the term of the debt.

[o] Impairment of Long-Lived Assets

The Company reviews long-lived assets such as capital assets and intangible assets whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. When indicators of impairment of the carrying value of the assets exist and the carrying value is greater than the net recoverable value, an impairment loss is recognized to the extent that the fair value is below the carrying value.

[p] Asset Retirement Obligations

Effective October 1st, 2004, the Company adopted the recommendations of CICA Section 3110, "Asset Retirement Obligations" ["CICA 3110"]. Under the new standard the Company records the fair value of a liability for an asset retirement obligation in the period in which it is incurred. The associated asset retirement costs are capitalized as part of the carrying amount of the long-lived asset and amortized over the expected useful life of the asset. The adoption of CICA 3110 did not have any impact on the Company's consolidated financial statements.

2. BUSINESS ACQUISITIONS

AJJA Information Technology Consultants Inc.

On October 11th, 2005, 100% of the common and preference shares of AJJA Information Technology Consultants Inc. ("AJJA"), an information technology staffing company, were acquired for cash, convertible notes, and zero-interest vendor-take-back loans. The convertible notes have a nominal value of $4,000,000 and are to be repaid $325,000 quarterly plus interest beginning December 31st, 2006 and $337,500 quarterly plus interest beginning June 30th, 2007. Interest is payable on each payment date at the rate equivalent to that on a 90-day Canadian Treasury Bill for the 90-day period immediately preceding each payment date, with interest accruing from October 1st, 2006. The notes are convertible over their term to common shares of the Company at an exercise price of $1.00 per share. In accordance with CICA 3860, the convertible notes are to be separated into two components: a financial liability to make future payments and an equity instrument that is effectively a call option granting the holder the right, for a specified period of time, to convert into common shares of the Company. The Company has calculated the fair value of the financial liability component of the convertible notes to be $3,122,573 by discounting the quarterly payments of principal plus estimated interest using an effective interest rate of 15% per annum. This discount on the convertible notes is being charged to interest expense over the term of the loan. The carrying amount of the equity instrument, $877,427, was determined by deducting the fair value of the financial liability from the amount of the convertible notes as a whole. The zero-interest vendor-take-back loans have a nominal value of $2,200,000 and are to be repaid $36,667 monthly for 60 months. The Company has calculated the fair value of the vendor-take-back loans to be $1,541,268 by discounting the monthly payments using an effective interest rate of 15%. This discount on the vendor-take-back loans is being charged to interest expense over the term of the loans. The results of AJJA have been consolidated commencing October 11th, 2005.

The purchase price for the AJJA acquisition has been allocated to identifiable tangible and intangible assets acquired and liabilities assumed based on their estimated fair values as follows:

	$
Working capital	1,233,833
Capital assets	185,771
Intangible assets – existing contracts	1,265,000
Intangible assets - customer relationships	6,000,000
Intangible assets - non-competition agreements	500,000
Future income tax liability	(2,804,718)
Goodwill	5,917,050
	12,296,936

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2006

The purchase price components for the acquisition of AJJA are:

	$
Cash consideration	6,200,000
Liability portion of notes	3,122,573
Conversion rights on notes	877,427
Vendor-take-back loans	1,541,268
Transaction costs	555,668
	12,296,936

The costs of the intangible assets are being amortized on a straight-line basis as follows:

Customer relationships	5 years
Existing contracts	2 years
Non-competition agreements	3 years

iGate Mastech Ltd.

On November 16th, 2005, 100% of the common shares of iGate Mastech Ltd. ("iGate"), an information technology staffing company, were acquired for cash and a promissory note. The promissory note has a nominal value of $500,000 that is due November 16th, 2007. The promissory note pays interest only quarterly at the rate equivalent to that on a 90-day Canadian Treasury Bill for the 90-day period immediately preceding each payment date. The Company has calculated the fair value of the promissory note to be $399,829 by discounting the nominal value plus the stream of estimated quarterly interest payments using an effective interest rate of 15% per annum. This discount on the promissory note is being charged to interest expense over the term of the note. The results of iGate have been consolidated commencing November 16th, 2005.

The purchase price for the iGate acquisition has been allocated to identifiable tangible and intangible assets acquired and liabilities assumed based on their estimated fair values as follows:

	$
Working capital	5,410,259
Property and equipment	243,159
Intangibles - existing contracts	1,150,000
Intangibles - customer relationships	6,000,000
Liability for premise leases	(574,441)
Future income tax liability	(1,918,050)
Goodwill	3,482,902
Total	**13,793,829**

The purchase price components for the acquisition of iGate are:

	$
Cash consideration	12,293,000
Vendor-take-back loans	399,829
Transaction costs	1,101,000
	13,793,829

The costs of the intangible assets are being amortized on a straight-line basis as follows:

Customer relationships	5 years
Existing contracts	2 years

Year Ending September 30, 2005

Vision2Hire Solutions Inc.

100% of the common shares of Vision2Hire Solutions Inc. ["V2H"] were acquired for cash and convertible notes on December 1st, 2004. The convertible notes have a nominal value of $446,054, pay no interest over their three-year term, and are to be repaid $55,757 quarterly beginning February 11th, 2006. The notes are convertible over their term to common shares of the Company at an exercise price of $2.00 per share. In accordance with CICA 3860, the convertible notes are to be separated into two components: a financial liability to make future payments and an equity instrument that is effectively a call option granting the holder the right, for a specified period of time, to convert into common shares of the Company. The Company has calculated the fair value of the financial liability component of the convertible notes to be $393,014 by discounting the quarterly payments using an effective interest rate of 6% per annum. This discount on the convertible notes is being charged to interest expense over the term of the notes. The carrying amount of the equity instrument, $53,040, was determined by deducting the fair value of the financial liability from the amount of the convertible notes as a whole. The results of V2H have been consolidated in the Company's accounts commencing December 1st, 2004.

The purchase price for the V2H acquisition has been allocated to identifiable tangible and intangible assets acquired and liabilities assumed based on their estimated fair values as follows:

	$
Working capital deficiency	(257,044)
Capital assets	23,411
Intangible assets - customer relationships	800,000
Future income tax assets	76,310
Goodwill	10,620
	653,297

The purchase price components for the acquisition of V2H are as follows:

	$
Cash consideration	56,217
Liability portion of notes	393,014
Conversion rights on notes	53,040
Transaction costs	151,026
	653,297

The costs of the intangible assets - customer relationships are being amortized on a straight-line basis over 3 years.

Promethean Systems Consultants Inc.

On January 1st, 2005, Promethean Systems Consultants Inc. ["Promethean"] was acquired in exchange for 150,000 shares of the Company and 266,125 share purchase warrants of the Company exercisable at a price of $1.00 per share for a period of 4 years. Of the warrants issued, 157,422 were released from escrow in September 2005 and the remaining 108,703 will be released at a rate of 1/3 per year, beginning May, 2006. The fair value of the warrants was estimated using the Black-Scholes option pricing model. Key valuation assumptions include an estimated term of 3 years, risk-free interest rates of 3.06% and 3.28%, and stock volatility of 0.4963 based on a 3-year trading history. In addition, the Company undertook for 3 years to make $1,500 monthly interest payments on bank debt of the former shareholders of Promethean, as well as guaranteeing that bank debt up to an amount of $100,000 which approximates fair value. The monthly interest payments have been recorded as a long-term debt with a fair value of $49,307, representing the present value of the payments calculated using a discount rate of 6% per annum. The results of Promethean have been consolidated in the Company's accounts commencing January 1st, 2005.

The purchase price for the Promethean acquisition has been allocated to identifiable tangible and intangible assets acquired and liabilities assumed based on their estimated fair values as follows:

	$
Working capital deficiency	**(137,266)**
Capital assets	**12,257**
Intangible assets - customer relationships	**170,000**
Intangible assets - existing contracts	**30,000**
Goodwill	**15,689**
Future income tax assets	**227,760**
	318,440

The purchase price components for the acquisition of Promethean are as follows:

	$
Issue of 150,000 common shares at a price of $1.00 per share	**150,000**
Issue of 266,125 shareholder warrants, at fair value	**66,154**
Long-term debt	**49,307**
Transaction costs	**52,979**
	318,440

In accordance with Canadian GAAP, the value of the 150,000 common shares was determined based on the average market price of the Company's common shares for the two trading days prior to the parties' agreement and the two trading days following the agreement.

The costs of the intangible assets are being amortized on a straight-line basis as follows:

Customer relationships	4 years
Existing contracts	6 months

Additionally, as part of the agreements with the shareholders of Promethean, the Company allocated employee retention warrants on May 5th, 2005 to purchase 250,000 common shares of the Company. These warrants vest under terms similar to those of the Company's employee stock option plan.

3. INVESTMENT TAX CREDITS RECOVERABLE

Loans to companies related to the Chairman of the Company, non-interest bearing and with no fixed repayment terms	**230,944**	267,727
Miscellaneous advances	**—**	14,432
	230,944	282,159

Amounts due from related parties are non-interest bearing with no stated terms of repayment.

6. INCOME TAXES

[a] The provision for (recovery of) income taxes differs from the expense (recovery) that would be obtained by applying the statutory tax rate to earnings (loss) before income taxes as a result of the following:

	For the three month period ending:		For the nine month period ending:	
	June 30, 2006 $	**June 30, 2005** $	**June 30 2006** $	**June 30, 2005** $
Income tax (recovery) expense at statutory tax rate	**(1,149,944)**	(138,965)	**(2,005,477)**	17,438
Increase (decrease) in income taxes resulting from timing differences	**428,865**	223	**1,138,864**	(93,292)
	(721,079)	(138,742)	**(866,613)**	(75,854)

[b] Future Income Tax Liabilities

CICA Handbook Section 1581.48 *Business Combinations* requires that when a business is acquired, all identifiable intangible assets should be recognized as a part of the assets acquired with the business. Accordingly, upon the acquisitions of AJJA and iGate, the Company recognized for accounting purposes intangible assets totaling $7,765,000 and $7,150,000 respectively (note 2). These intangible assets are amortized over their estimated useful lives. This amortization expense is not, however, tax deductible and so the intangible assets have a nil value for tax purposes. This taxable difference between their value for accounting purposes and their value for tax purposes is required by CICA Handbook Section 3465 *Income taxes* to be recognized as a future tax liability, calculated by multiplying the taxable differences by the expected future corporate income tax rate; at the time of these acquisitions, the expected future tax rate was 36.12%.

These future tax liabilities do not create a new burden of tax for the Company to pay, but function instead to reduce the carrying value of the intangible assets on the balance sheet to a *net-of-tax* amount.

	$
Balance, September 30, 2005	—
Future income tax liabilities calculated as per above	
AJJA	**2,804,718**
iGate	**1,918,050**

8. BANK INDEBTEDNESS & CASH

	June 30, 2006 $	**September 30, 2005** $
(Bank overdraft) cash	**85,859**	(644,821)
Bank operating loan	-	(9,933,660)
	85,859	(10,578,481)

On September 30th, 2005, the Company had a revolving demand bank credit facility of $10,000,000, bearing interest at prime plus 1.5%. The credit facility was collateralized by a general security agreement that constitutes a first charge over all the assets of the Company. The operating loan was retired through proceeds from the term facility arranged November 16th, 2005 (see Note 12).

9. LONG-TERM DEBT

Long-term debt consists of the following:	**June 30, 2006** $	**September 30, 2005** $
Promissory note, non-interest bearing, payable quarterly at the lesser of 2% of net sales of the Company or $75,000	**88,808**	161,387
Acquisition obligation of the Company to pay $458,382 on March 10th, 2006 in common stock of the Company based on the weighted average trading price for previous twenty days or, at the Company's option, in cash, however the holders have the right to refuse a cash offer and elect to accept shares	**458,382**	444,933
Promissory note, non-interest bearing, payable yearly beginning October 2004, at the greater of $75,000 or a formula based on Protec's income	**278,570**	266,313
V2H acquisition convertible note obligation of $446,054, non-interest bearing repayable in equal quarterly principal payments of 1/8 of the principal beginning in the second year after closing, and at the holders' option, convertible into common shares of the Company at a price of $2.00 per share; fair value of conversion rights added to shareholders' equity	**331,182**	407,748
Present value of Promethean $49,307 acquisition obligation of 36 interest-only monthly payments of $1,500, discounted at 0.5% per month	**31,014**	44,255
Sirius acquisition convertible note obligation, bearing interest tied to the 90-day treasury bills rate, repayable in equal quarterly principal payments of $125,000, and at the holders' option, convertible into common shares of the Company at a price of $3.00 per share, fully collateralized by Government of Canada Treasury Bills held by a trust	**125,000**	125,000
AJJA acquisition convertible note obligation of $4,000,000, bearing interest tied to the 90-day treasury bill rate, repayable in quarterly $325,000 plus interest beginning December 31, 2006 and $337,500 plus interest beginning June 30, 2007,and at the holders' option, convertible into common shares of the Company at a price of $1.00 per share; fair value of conversion rights added to shareholders' equity	**3,379,750**	—
AJJA acquisition vendor take-back loan of $2,200,000, non-interest bearing, repayable $36,667 monthly for 60 months	**1,341,255**	—

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2006

[i] During the nine month period ending June 30th, 2006, 197,540 stock options were exercised, resulting in cash receipts of $60,662.

[ii] Effective November 16th, 2005, the Company issued 1,000,000 share purchase warrants in conjunction with the issuance of a $5,000,000 debenture *[note 9]*. The Company has reflected an estimated fair value of these warrants of $360,639 using the residual method described in CICA Handbook Section 3860, *Financial Instruments – Disclosure and Presentation*.

[iii] Effective November 16th, 2005, the Company issued 3,928,000 share purchase warrants in conjunction with the issuance of convertible notes of $7,658,000 *[note 9]*. The Company has reflected an estimated fair value of these warrants of $533,559 using the residual method described in CICA Handbook Section 3860, *Financial Instruments – Disclosure and Presentation*.

[iv] The Company has advanced funds to key senior employees to acquire shares of the Company. On June 30th, 2006, the balance of such loans totaled $1,084,838 of which $200,000 bears interest at 5% per annum to be repaid September 30th, 2006. The remaining loans are non-interest bearing with various terms of repayment. The balances at each reporting date have been recorded as offsetting amounts to capital stock.

[v] The Series A preferred shares are convertible at the discretion of the holder at any time into one common share for each preferred share held and are voting.

[c] Loss Per Share

The following table details the weighted average number of common shares outstanding:

	For the three month period ending:		For the nine month period ending:	
	June 30, 2006	**June 30, 2005**	**June 30 2006**	**June 30, 2005**
Basic	**42,390,872**	46,478,399	**42,329,344**	45,933,884
Diluted	**42,390,872**	52,911,152	**42,329,344**	52,860,699

As a result of the net losses for the periods ending June 30th, 2006, the potentially dilutive securities have not been included in the calculation of diluted loss per share, because to do so would have been anti-dilutive.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2006

[d] Equity Components of Convertible Note Obligations

The variations in the equity component of convertible note obligations are as follows:

	June 30, 2006 $	**September 30, 2005** $
	(9 months)	*(12 months)*
Balance, beginning of period	**53,040**	—
Equity components of obligations issued:		
V2H acquisition note	—	53,040
AJJA acquisition notes	**877,427**	—
Convertible term notes	**788,415**	—
Balance, end of period	**1,718,882**	53,040

11. NET CHANGE IN NON-CASH WORKING CAPITAL ITEMS

The net change in non-cash operating elements of working capital consists of the following:

	For the three month period ending:		**For the nine month period ending:**	
	June 30, 2006 $	**June 30, 2005** $	**June 30, 2006** $	**June 30, 2005** $
Accounts receivable	**(150,340)**	(193,255)	**(2,659,107)**	(2,743,381)
Investment tax credits recoverable	—	(117,875)	—	(497,533)
Deposits and prepaid expenses	**26,284**	(88,570)	**(166,186)**	(491,693)
Accounts payable and accrued liabilities	**625,029**	73,888	**4,169,132**	(37,772)
Deferred revenue	**(123,576)**	54,497	**200,694**	126,438
	377,397	(271,321)	**1,544,533**	(3,643,941)

12. TERM BANK FACILITY

On November 16th, 2005, the Company obtained a revolving term credit facility of $20,000,000 from a Schedule "A" bank, with a term of two years, bearing interest at prime plus 0.5% to 1.5%, depending on a specific bank covenant ratio, collateralized by a general security agreement that constitutes a first charge over all the assets of the Company. A portion of the proceeds was used to retire the $10,000,000 facility in place on September 30th, 2005.

13. FINANCIAL INSTRUMENTS

[a] Fair Value

The fair values of the Company's current assets and current liabilities approximate their carrying values due to their short-term nature. The fair market value of long-term debt approximates carrying value based on the Company's current borrowing rates for similar types of borrowing arrangements.

[b] Credit Risk

The Company manages its credit risk with respect to accounts receivable primarily by dealing with creditworthy customers. Substantially all of the Company's revenue and the resulting accounts receivable are from large companies and governmental agencies.

[c] Foreign Currency Rate Risk

The Company is exposed to risk due to fluctuations in the exchange rate of the U.S. dollar in relation to the Canadian dollar.

14. SEGMENT INFORMATION

The Company considers its business to materially fall within one segment, that being the placement of computer and engineering personnel on a contract or permanent basis.

15. COMPARATIVE CONSOLIDATED FINANCIAL STATEMENTS

The comparative consolidated financial statements have been reclassified from statements previously presented to conform to the current presentation.

16. UNAUDITED INTERIM FINANCIAL STATEMENTS

These unaudited interim financial statements were not reviewed by the Company's external auditors.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

June 30, 2006

17. RESTRUCTURING COSTS

The integration of the acquisitions of AJJA Information Technology Consultants Inc. and iGate Mastech Limited has resulted in significant cost savings from a combination of people resources and redundant leased office space. During the quarter ending June 30th, 2006, primarily in June, 2006, Brainhunter Inc. reduced a number of staff positions, including senior management, administration, sales and recruiting personnel. The total annualized compensation costs are estimated to exceed $2,100,000 million. In accordance with accounting policy, severance and termination costs and allowances associated with personnel reductions must be recognized as an expense at the point the decision is made. Additionally, the acquisitions resulted in redundant leased premises, due to amalgamation of certain offices. The Company has provided in this quarter a reasonable reserve for this redundant space and the severance and termination costs.
